Technical Skills

- Front-End: HTML, CSS, JavaScript, React.js, Next.js, Tailwind CSS
- Back-End & Database: Supabase, MySQL
- Tools & Version Control: Git, Vercel
- Design & Other: Canva, Prompt Engineering (AI-Assisted Development)

Education

King Mongkut's University of Technology Thonburi (KMUTT)

B.Sc. in Digital Service Innovation, School of Information Technology | 2023 - Present

Bangpakok Wittayakom School

High School Diploma (Science-Mathematics) | 2017 - 2023

Soft Skills

- Team Collaboration
- Problem Solving
- Time Management
- Adaptability

Projects

SIT Student Platform (SIT App)(Personal Project)

Full-Stack Web Developer | Next.js, Tailwind CSS, Supabase, Vercel

- Designed and developed a comprehensive digital campus application for SIT KMUTT students, managing the entire lifecycle from wireframing to deployment.
- Student Portal: Built features for course enrollment, real-time class scheduling, assignment tracking, facility & equipment booking, document requests, and a centralized news feed.
- Admin Dashboard: Implemented a management system for admins to announce events, create tasks/assignments, grade submissions, and oversee campus operations.
- Interactive Showcase & Live Demos: [\[Click to view my project \]](#)

We Bear Bears Travel Project (Academic Project)

UX/UI Designer & Design Strategist

- Conducted UX research to solve budget-aligned travel planning for foreign tourists.
- Designed a bundle-style travel application with customizable itineraries based on a per-person budget.
- Created wireframes and interactive prototypes in Figma for group trip collaboration and real-time adjustments.
- Demo Links: [\[Figma Presentation\]](#)

Padlaek – Sustainable Clothing Swap Platform (Academic Project)

Front-End Developer & UI/UX

- Developed a "Tinder-inspired" sustainable clothing swap platform focusing on intuitive user experiences.
- Translated static Figma wireframes into high-fidelity, mobile-first UI components using Next.js and Tailwind CSS.
- Collaborated with the development team to deploy the clothing listing and matching flows to production.
